Information about the speaker

Leif Frilund has been President and CEO of Walki Group, since its inception as an independent company in 2007. Walki Group is a Finnish based packaging materials company with ten plants in both Europe and Asia. Before joining Walki, Leif Frilund was CEO of BTG Group, Division President at Ahlstrom Corporation and Managing Director of Albany Fennofelt Oy. He started his career as a development engineer with Raisio Chemicals (today BASF).

Leif Frilund has a M.Sc. (Eng.) degree in Chemical Engineering and has studied Business Administration in the USA.
