Information about the speaker

Upon completion of her bachelor degree at the Chung Yuan Christian University in Taiwan, Dr. S.H. Li made her PhD in Chemical Engineering at the National Cheng Kung University.

She published several publications in the field of the physical characterization of polymeric blends.

After a successful international collaboration at the university of Hamburg, she decided to pursue her career in Germany and joined Kuraray in July 2016 to enhance our activities in the field of PVOH for barrier applications for paper and polymeric films.
