Information about the speaker

Per Emilsson graduated, M.Sc., at the Linköping Technical University. The thesis work was done at nowadays Stora Enso Skoghall mill. In connection with this he was hired as production engineer for the board machine KM7, with responsibility for the coating section and coating kitchen during the project-, start-up and first years of operation.

The next step was, 6 years at Stora Enso (former Billerud) R&D, with product development, quality control, paper process analysis, development & implementation of PC based working routines.

He started to work for UMV Coating Systems (former Inventing, BTG) 31 years ago, initially as Pilot Plant Manager, thereafter Sales Manager and is currently, Vice President Customer Solutions.

He is a member of SPCI since 1983. Presentations at e.g. PTS Coating Symposiums, PTS Streicherei Seminars, SPCI, TAPPI Coating Conference, TAPPI Taiwan, ASIA Paper, APPITA, ABTCP, Paperex India, VAPA Millvision, ATICELCA.
